

**CANDIDATE FOR DIRECTOR
HESPERIA RECREATION AND PARK DISTRICT**

NAME: MICHAEL J. LAMPIGNANO

AGE: 66

OCCUPATION: Retired Telecommunications Manager

My family has been a part of Hesperia since 1963. I have seen many changes since then, many good, but some we could do without. Since being a part of Our Community, My wife and I have tried to keep involved in Our City. My wife has been a member of the Parks H.A.R.D. Foundation, we started the Hesperia BMX track and I am the Vice-President of We Really Care, a program that helps Our Children with School needs. I have been involved in many political positions and have the experience to make necessary changes. I am running for the Park Board in order to assist in what I perceive as urgent and necessary changes. Our parks security is not adequate. Children have been approach by less then desirable individuals and it is only a matter of time before something terrible happens. I will work to increase security and improve neglected park facilities. Senior Citizens are one of our greatest resources! We tend to provide facilities for Seniors, but don't utilize their experience and skills. I plan to provide programs that will utilize these skills and make our Seniors an important part of our community.
